Installation

To attach a plastic dome to a TVD-LWB-1 bracket:

Note: See the list of SKUs by hole position on page 1, Hole A.

1. Attach the bracket to the wall using the four B screws (drywall anchors are provided, if needed).

2. Remove the bubble assembly and attach the dome to the bracket using three C screws into holes labeled A (see Figure 1 for the location of the holes).

3. Finish cabling and adjust the lens position, then attach the bubble assembly to the camera.

To attach a wedge camera to a TVD-LWB-1 bracket:

Note: See the list of SKUs by hole position on page 1, Hole B.

1. Attach the bracket to the wall by using the four B screws (drywall anchors are provided, if needed).

2. Attach the adaptor plate to the TVD-LWB-1 bracket using the four A screws into holes B (see the Figure 1 on page 1 for the location of the holes).

3. Remove the bubble assembly and attach the camera to the adaptor plate with two screws (included with the camera).

4. Finish cabling and adjust the lens position, then re-attach the bubble assembly to the camera.
