

powered by  ALARM.COM

With optional cellular reporting and Alarm.com features, Simon XTi offers remote monitoring and control of your security system for convenient and effective home protection.

## Options to make the most of your system

Convenient and easy to use, enables complete system control from multiple locations throughout your home.

## Designed for modern life

The Simon® 5" TouchScreen (60-924-RF-TS-2) is a convenient color touch screen for obtaining at-a-glance status of your home and property or for controlling your home systems. Designed to work with Simon XTi-5, Simon XTi and Simon XT v1.3 (or later versions) control panels, this LCD screen provides wireless operation of all security system functions. It can even be set up to control your home's lighting and thermostat, and it can provide current weather conditions, as well as a four-day forecast.

## Convenient home security, plus a whole lot more

Quick, at-a-glance home status provides a complete view of home systems, including security, indoor temperature and weather.

### Simon 5" TouchScreen Main Screen Key Functions

Keeping families informed, connected and protected.

## Always be prepared

The Simon 5" TouchScreen helps you prepare for whatever nature has in store by displaying current weather conditions and a four-day weather forecast\*. Wireless and self-contained, these adaptable touch screens are ideal for placing in the master bathroom, the kitchen, and near common entry/exit doors, so you'll know what to expect weather-wise before you head out the door.

Four-day weather forecast provides helpful information quickly and conveniently.

\*Requires Alarm.com® module and interactive services

## Home security, for peace of mind

The Simon® 5" TouchScreen makes home security even easier. Emergency fast-action keys allow you to quickly summon fire, auxiliary panic or police assistance with one button. The Simon 5" TouchScreen also has a battery backup that provides power during power outages, and is recharged once power is restored.

The TouchScreen works together with your Simon system for added convenience and functionality.

## Lighting and thermostat control to help support energy reduction goals

The Simon 5" TouchScreen conveniently allows you to control your Z-Wave® thermostat, lights, garage doors and door locks\* from a single access point, or with multiple touch screens throughout your home. You can set an automation schedule that will adjust your thermostat when the security system is armed, to help support your efforts to reduce energy usage and save on utility bills.

Thermostatic control makes it easy to set automation schedules in conjunction with security events to help save energy and help lower utility bills.
