

NS4802-24P-4S-2XFAQ

NS4802-24P-4S-2X

Q:
Does the stacking port of NS4802-24P-4S-2X support 1Gbps SFP transceiver?

A:
No, it doesn't.
The stacking port supports 10Gbps SFP+ transceiver only and we suggest using stacking cable "CB-DASFP-0.5M or CB-DASFP-2M".

NS4802-24P-4S-2X

Q:
Can I upgrade firmware to a stacking group of NS4802-24P-4S-2X?

A:
Yes, you can, please upgrade firmware to the master switch and the other switches are also upgraded at same time.
